

# Samsung SPEX SCH-R210 Speaker Replacement

This guide will show you how to replace the speaker if it is not working properly.

Written By: Susan

## INTRODUCTION

This is an easy DIY guide to replace the speaker. It involves removing the back cover, battery, and plastic cover over the motherboard. You will only need a screwdriver for this guide.

---

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Phone back cover

- Remove back cover by pressing down with your thumb on top of the back cover.

## Step 2

- You will hear a popping noise as the cover releases from the phone. Continue to slide the cover down.

### Step 3

- Lift the cover off the phone and put aside

### Step 4 — Battery

- Remove the back lid of the cell phone.

## Step 5

- Place your thumb on the edge to lift the battery.

## Step 6

- Remove the battery.

## Step 7 — Speaker

- Once the battery is removed, use the Phillips #00 screwdriver to unscrew the 4 3/16" screws holding the black plastic cover in place.

## Step 8

- Remove the headphone cover from the left side and the volume cover from the right side of the black plastic cover.

## Step 9

⚠ Remove the black plastic cover from the back of the phone. This may take a little effort.

## Step 10

- The speaker is located on the opposite side of the black plastic cover. Using your fingernail, pry the speaker out of the cover.

## Step 11

- Replace with a new speaker.

To reassemble your device, follow these instructions in reverse order.
